E-WASTE CURBSIDE COLLECTION FOR THE TOWN OF PALMYRA

Electronics are one of the fastest growing items in the Wisconsin waste stream, with thousands of devices discarded each year. Computers, TVs, cell phones and other electronics contain valuable materials that can be recovered through responsible recycling. Electronics also contain potentially hazardous materials, such as lead and mercury, that can pose a risk to human health and the environment if not properly managed. Wisconsin's electronics recycling law keeps many devices out of landfills and incinerators to create recycling opportunities for state residents.

To schedule e-waste removal as part of your monthly bulk collection please email:
